Websites store information such as site preferences and login status in "cookies" on your computer. This article describes how to delete cookies in Firefox.

To clear your history and cookies from Safari in iOS 8, tap Settings → Safari → Clear History. Safari is the default web browser for Apple devices and is also available for Windows. It ranks as the most popular browser, but you can also delete your IE cookies manually on Windows.

Clearing your Web browser's cache, cookies, and history - Why bother? When you visit a page or access a file using your Web browser (Internet Explorer, Firefox, Safari, Google Chrome, etc.), your browser saves information in the cache on your computer for faster access to previously visited pages. However, this cache can also cause problems during login or when you want to access a specific file. In this case, it's a good idea to clear your cache, cookies, and history using the following procedures:

**Firefox:**
- Open Firefox.
- Click on the menu bar and select "Firefox." (If you don't see a "Firefox" option, click on "Tools.")
- Select "Options." (The menu bar will automatically change to "Firefox Options" in Mac OS X.)
- In the left pane, click "Privacy." (The menu bar will automatically change to "Privacy Options" in Mac OS X.)
- Click the "Settings..." button under "Cookies and Website Data." (In Mac OS X, click "Clear Private Data...")
- Select what you want to clear: Cookies and Website Data, Browsing History, and Website Data.
- Click "Save."

**Internet Explorer:**
- Open Internet Explorer.
- Click on the menu bar and select "Tools." (If you don't see a "Tools" option, click on "Internet Options.")
- Click on the "Privacy" tab.
- Move the slider to clear the browse history or clear all cookies.
- Click "OK." (In Internet Explorer 9 and higher, click "Save Changes." In Internet Explorer 10 and higher, click "OK." In Internet Explorer 11 and higher, click "Apply." In Internet Explorer 12 and higher, click "Yes.")

**Safari:**
- Open Safari.
- Click on the menu bar and select "Safari." (If you don't see a "Safari" option, click on "Preferences.")
- Click on the "Privacy" tab.
- Click the "Clear History..." button.
- Select what you want to clear: Website Data, Cookies, and Website Data.
- Click "Clear History." (In Mac OS X, click "Clear History" under "History Options." In Mac OS X 10.6, click "Clear History...")

Note: For help with clearing cached files and cookies on a mobile device, see the manual or online help for your specific device and browser.

**Chrome:**
- Open Chrome.
- Click on the menu bar and select "Settings." (In Chrome 57 and higher, click on "More tools.")
- Click on "Clear browsing data." (In Chrome 57 and higher, click on "Clear browsing data...")
- Select what you want to clear: Cookies, other site data and files, browsing history, and cached images and files.
- Click "Clear data." (In Chrome 57 and higher, click "Clear data...")
